Commercial Club Invites Traveling Salesmen to Banquet Tomorrow Night-Want Merchants to Help.

When the Commercial club serves a banquet in the Elks club at 6:30 o'clock tomorrow night to forty invited traveling salesmen who make their home in Maryville, one of the big things that may be discussed is a proposition to furnish better hotel accommodations here to the traveling public The meeting is a monthly one and is not called primarily for this purpose, but it is expected such a proposition

A number of the leading business men of the city have held informal sessions recently to talk over a proposition to better hotel accommodations here. The board of directors of the Commercial club also has touched on the matter and has discussed the subject in a general way with business men at regular weekly conferences As yet no definite plans have been agreed upon, however.

Merchants the Stockholders.

One of the plans suggested is for business men and others of the city who are interested to subscribe for \$1,000 stock in a corporation or company to be formed for the erection or establishment of a new hotel in Maryville.

While the purchase of stock by the merchants is planned principally to furnish better facilities for persons coming to the city, and not to make money on the proposition, it is the be lief of those at the head that a good hotel here would be a paying investment from the start, or at least after the first year of its operation.

#### Kills Large Jack Rabbit.

Toggery ..... 8

While hunting with a companion along the 102 river, east of Maryville, yesterday afternoon, Clyde Stephenson of this city killed a large jack rabbit. It weighed between 11 and 12 pounds and was about two and onehalf feet long. The tips of the ears were black, as is usual, but the legs were slightly shorter than the customary jack rabbit of the prairies, where the rabbit gets more training in their use than here.

According to Mr. Stephenson, he thought on first seeing the rabbit that it was a dog.
